HALAL

(Safety, Quality, Efficacy and Hygiene)

The life of every human being revolves around the concept of Halal. The word “Halal” literally means permissible or lawful. Opposite to Halal is Haram, which means unlawful or forbidden. Halal, in reference to food, is a dietary standard as prescribed in the Quran. General Quranic guidance dictates that all foods are Halal except those that are specifically mentioned as Haram (unlawful or prohibited).

HALAL

(Safety, Quality, Efficacy and Hygiene)

A is duly recognized with “Halal & Good Manufacture Practices (GMP)” certification for its herbal, pharma, cosmetics & nutraceutical products as per Halal Food Control Division at the Department of Syariah Affairs under MoRA, Brunei.

Being the first Brunei’s Halal Pharmaceutical company where our entire plant is Halal certified and our objective is to assure products manufactured are halal according to the Islamic Law to meet the demand of not only Muslim customers globally as well.

FLEXIBILITY

We remain agile in a dynamic environment by seeking flexible, scalable and cost-effective. We seize new prospects as they arise.

RELIABILITY

We are committed to performance with reliability. Doing what is right for our patients and consumers must be at the heart of every decision we make. In doing so, we demonstrate reliability in action, at every level, every day.

The background image shows two individuals in a factory or industrial environment. They are wearing full-body white protective suits (hazmat suits), including hoods, and large white respirator masks that cover their eyes and noses. They are also wearing blue nitrile gloves. The person on the right is holding a clipboard. The background features industrial equipment, including a large blue machine with a yellow warning triangle on the right, and various pipes and structural elements of the facility. The lighting is bright and even.

EMINENCE

Eminence is to own up accountability for outcome, leading to symbolizing the commitment at work.
